

*Please come and talk to us about the Extended Diploma in Photography. As well as telling you all about your exciting new course, we would also like to see your photographs. Please make a selection of between 12 and 20 photographs that you have taken, print them off and bring them with you. We are also interested to see examples of other creative work you have made.*

*We welcome students with different backgrounds and do not require you to have studied art and design or photography before. However, if you have, in addition to the selection of your photographs, please bring an example of a sketchbook and a piece writing about art or photography.*

Thanks,
